

TREESA CLEVIN MONTEIRO

ASPIRING SOFTWARE ENGINEER

Dear Hiring Manager,

I am writing to express my interest in any available roles related to Java/python Development, Software Development, or Web Designing at your company. I have recently completed my Master of Computer Applications (MCA) and am looking for an opportunity to begin my career with a forward-thinking company.

During my academic journey, I developed a project called "Agromart", a full-stack web application built using React and Node.js, designed to support farmers in managing agricultural equipment and services. This experience helped me strengthen my technical skills and deepened my interest in creating user-friendly digital solutions.

My core skills include Java, HTML, CSS, JavaScript, SQL, and a strong understanding of responsive web design. I am a quick learner, committed to delivering quality work, and excited to grow with a team that values innovation. I have attached my resume for your kind consideration. I would be grateful for the opportunity to speak further about how I can contribute to your team.

Thank you for your time and consideration.

Sincerely,

Treesa Monteiro
